Manufacturer's Representative Specializing in Flow Controls for Chemical Applications

## HAZCHEM BELLOWS SEALED GLOBE VALVES

Hunt & Mitton (HMV) is a global supplier of Packed Gland and Bellows Sealed Globe valves that are purpose built for use in HazChem services. Chlorine, Phosgene, AHCL, HCN, HF Acid, and other similarly dangerous fluids are what the HMV range are designed for.

- Chlorine, Phosgene, AHCL, HCN, HF Acid
- Wide range of materials of construction
- 1/2" to 16"; ANSI 150# to 300#

## BUTTERFLY VALVES

TRIPLE OFFSET

Quality Manufacturers of Zero Leakage Triple Offset Butterfly Valves allowing selection from the most advanced designs on the market today.

- Zero Friction with zero leakage. Bi-directional Sealing
- Wafer, Lug, Flanged Short (ISO 5752), Flanged Long (ANSI B16.10), Block & Bleed
- 3" to 48"; ANSI 150# to 2500#

CUSTOM MADE

**Product range includes:**

- High Pressure Control Valves
- Custom Face to Face Dimensions
- Sizes to 60"
- Competitive Pricing and Short Lead Times

## BALL VALVES

**METAL SEATED - FLOATING & TRUNNION STYLES - GENERAL & SPECIFIC PURPOSE DESIGNS - HIGH TEMPERATURE - HIGH CYCLE**

Ball valves for Polysilicon, PTA, Coal Gas, Urea, Acetic Acid and Mining applications. Precision engineered to exacting tolerances for abrasive/erosive/corrosive applications

- Duplex, Hastelloy, Inconel, Incoloy, Titanium, Zirconium
- Floating Ball and Trunnion Designs
- 1/2" to 40", Pressure Class 150# to 2500#

General Service Metal Seated Ball Valves for the Refining, Mining, Chemical, Petrochemical and Power Generation industry.

## REMINGTON VALVES

- 1/2" to 24"
- ASME 150# to 4500#
- Carbon Steel, Stainless Steel, Inconel, Incoloy, Hastelloy, Titanium

**SOFT SEATED BALL VALVES - FLOATING & TRUNNION STYLES - GENERAL & SPECIAL PURPOSE DESIGNS - CHLORINE SERVICE - CRYOGENIC**

Habonim has earned an international reputation for developing and manufacturing high quality ball valves, pneumatic actuators and ancillary equipment.

- Chlorine specification ball valves from STOCK. Severe service & Cryogenic
- 3-piece, 2-piece and Uni-body designs
- 1/4" to 8", ANSI 150# to 2500#

MicroFinish Logo

MicroFinish Valves are a manufacturer of high quality industrial valves for the global energy and process industries with over 40 years of experience.

- General purpose and special/high alloy designs
- API 6D designs, 150# to 2500#, Sizes to 42"
- Metal seated Floating & Trunnion Styles

## CUSTOM MADE HIGH ALLOY VALVES

Founded in 1987 Red Point Alloys manufactures valves in specialized materials. Short deliveries for time sensitive projects.

- Large inventory of Titanium, Inconel, Incoloy and other exotic materials
- Complete range of sizes & pressure classes. Custom manufactured.

## CHECK VALVES

HY-GRADE offers a full line of check valves used across many applications and industries; Oil & Gas, Pulp & Paper, Chemical, Petrochemical, Refining, Mining, Marine and Power.

- 1" to 48"
- ANSI 150# to API 15,000#
- 100% Forged or Wrought materials in a wide range of steel and alloy options

## ACTUATORS AND VALVE AUTOMATION

QTRCO - Featuring Rack & Gear and Flat Yoke actuators that rival all competitors for reliability, long cycle life and UPTIME! QTRCO is the actuator to turn to for high speed / high cycle applications, or any service where reliability is critical.

- 3-year warrantee available
- Wide range of sizes and torques available
- Ductile Iron and all Stainless Steel options

Compact II Actuators feature a 4 Piston design for lighter weight and faster response time. These actuators are ideal for on/off or modulating control service.

- High quality, cost competitive 4 Piston rack & pinion actuators
- ISO 5211 and NAMUR mounting interface
- Wide range of torque outputs

Leading manufacturers of Rack & Pinion and Scotch Yoke Actuators. Strong USA support makes for an affordable and readily available actuator product

- Rack & Pinion in Polymer Body, Aluminum and Stainless Steel. 17 sizes w/ torques to 47,000 in-lbs.
- Scotch Yoke with output to 2.7 million in-lbs. Leading

Air Torque &  
Max-Air logos

CHEMFLOW Products provides full automation services for most of our product lines. Check with your Regional Sales Manager to learn more about our Valve Automation Capabilities.

## ADDITIONAL PRODUCT LINES:

Fully Lined Valves, Pipe & Fittings  
Fluid Transfer Couplings and Safety Shutdown Systems

We sell "Solutions with Integrity"

See your CHEMFLOW Regional Sales Manager for more Information

**CHEMFLOW PRODUCTS**  
is an Associate Member  
of the Chlorine Institute.
